## Description

Drainage channel for the collection of meteoric waters. Designed and reinforced for a high resistance. The channel is available with pre-mounted galvanized steel gratings with 3 different colors: grey, black white. External inlet diameters are  $\varnothing 32$ ; bottom diameters are 40/63 mm.

## Material

Made of PP (channel) and Galvanized Steel (grating)

## Use

This channel is used not only for the collection and drainage of rainwater but also industrial or commercial uses. The matching to its pre-mounted steel grating, indeed, make this product perfect to be installed on terraces, balconies, pool areas, locker rooms, bathrooms and for the food industry (in commercial kitchens).
