Description

Hercules adjustable support for outdoor flooring, with an adjustable height from min. 25 to max. 390 mm (depending on the model used). Each pack contains the complete disassembled support with base, screw and self-levelling head (up to 5% slopes) for decking and fixing the joists. The head of the holder is equipped with an integrated anti-noise rubber shim. The model from h. 150 to 270 mm is the only one that can be extended by applying the specific h. 120 mm extension (TER09-1183 / P120). The finalization of the adjustment of the support takes place with the floor installed using the appropriate key.

Material

Made of PP (polypropylene).

Use

Used in external areas, terraces, pavements.
